

Individual Project Report - Ang Panha

Week: 1

Period: 9-15 Dec 2025

Group: I4 GIC C

Team: 3

Project: Course Enrollment and Scheduling System

Weekly Summary

This week, I set up the team Github Repo, initialized the Spring Boot project, added dependencies, and structured the project files.

Task Log

Task A: Github Setup

- **status:** done
- **description:** github repo, main branch rulesets, collaborator invitation.
- **proof:** [Ascendant-7/course_enrollment](#)
- **reflection:** needed more project documents and configurations. eg: readme.md.

Task B: Project Setup

- **status:** done
- **description:** springboot setup with Maven, dependencies (used H2 instead of MySQL for initial testing).
- **proof:** [Ascendant-7/course_enrollment](#)
- **reflection:** none.

Task C: Project Structure

- **status:** done
- **description:** core source folders and some entity classes.
- **proof:** [Project Initialization - Commit #96142b2](#)
- **reflection:** considering a different structure soon: modules instead of technical folders.
